FAXAM™ 32

Mobil Industrial , Vietnam

Paraffinic Process and Flushing Oil

Product Description

Faxam™ 32 is paraffinic process oil that can be used in a wide variety of industrial and process oil applications. Faxam 32 can be used as a lubricant in non-critical applications, where oil operating conditions are moderate and there are no requirements for anti-wear or extreme pressure additives. As process oils, their physical characteristics make them suitable for use as a diluent or carrier oil in the manufacture of products such as lubricating oil additives, paper defoamants, seals, carbon paper, and other chemical formulations. Faxam 32 can be used as a flushing oil for cleaning lubrication systems.

Features and Benefits

- light color
- low odour
- good solubility characteristics
- good low temperature properties

Applications

- As a flushing oil in circulating systems
- As a carrier oil in formulations requiring good solvency
- As lubricant in less critical systems, where operating conditions are moderate and anti-wear and extreme pressure additives are not required.
